500,000	41,667	\$208	\$417	\$833	\$1,250	\$1,667	\$2,083	\$2,500	\$2,917	\$3,333	\$3,750	\$4,167	

1 - On the left edge of the chart, find your approximate annual or monthly income. These are general levels and they likely won't contain your exact income level. When you find a level that is close enough, be prepared to read to the right across that row.

2 - The percentages across the top of the chart are percentages that All Soulsians report using to determine their pledge. Across the top line of the chart, find a percentage that may be a good fit for you. Read down that column.

3 - Where your income row and percentage column intersect, you will see the monthly pledge amount produced by those two assumptions. For example, if you read across the \$100,000 income row, and down the 3% row, you will see that represents a monthly pledge of \$250. If you want to give more, you can find a pledge amount to the right. If you want to give less, you can move left. This chart is intended to provide only a rough context for you to set your pledge amount.

4 - The chart below annualizes several popular monthly pledge amounts.

Monthly pledge of	\$25	\$50	\$100	\$125	\$150	\$200	\$250	\$300	\$400	\$500	\$750
=											
Annual pledge of	\$300	\$600	\$1,200	\$1,500	\$1,800	\$2,400	\$3,000	\$3,600	\$4,800	\$6,000	\$9,000
